CAREER OBJECTIVE

I am an enthusiastic B.Tech CSE student specializing in IoT, with a strong foundation in C, Java, Python, and SQL. I enjoy developing reliable and scalable software applications and have a solid understanding of DSA, SDLC, and OOP. I am interested in software development, AI/ML, cloud technologies, embedded systems, and automation, and I am passionate about continuous learning and contributing to collaborative projects.

EDUCATIONAL QUALIFICATION

B. Tech in Computer Science and Engineering - IoT, Gitam University, Bengaluru 2022 – 2026
8.91 CGPA

INTERMEDIATE, Amaravathi Junior College 2020 – 2022
82.5%

SSC, Sri Chaitanya E/M High School (RES, Campus) 2019 – 2020
100%

TECHNICAL SKILLS

Programming Languages

C, Java, and Python.

Web Technologies

HTML, CSS, Basics of JavaScript & React.js.

Databases

SQL/ PLSQL.

Others

OOP, Data Structures, Algorithms, SDLC, Problem-Solving Skills, WordPress.

Tools Used

Windows, Visual Studio, JDK, Google Colab, Git, GitHub, Pymol, Google Cloud.

INTERNSHIP UNDERTAKEN

WordPress Developer Intern , At InnovateIT Labs 05/2025 – 06/2025

Contributed to 3+ live and one client websites using WordPress, focusing on mobile responsiveness and SEO. Customised themes to meet client needs, reducing design time by 25%.

PROJECT UNDERTAKEN

Energy-Efficient Edge Data Processing for Smart Agriculture and Wildlife Monitoring

Built an IoT-based monitoring system with rule-based edge processing and adaptive sleep modes, reducing power consumption by ~75% for remote agriculture and wildlife monitoring.

Predicting Molecular Interactions from Protein Binding Images

Developed a hybrid deep learning model combining 3D-CNN and VGG16 to predict protein-ligand interactions from PDB-derived protein binding images.

Automated Attendance & Availability Tracking via Teams Using Microsoft Power Automate

Availability Flow is an automated Power Automate solution that collects daily availability from team members via Microsoft Teams and logs it in Excel for tracking.

Smart Weather Monitoring System with Cloud Integration

Developed an IoT-based weather monitoring system with cloud integration for real-time temperature and humidity tracking and alert generation

CERTIFICATIONS & ACCOMPLISHMENTS

Internal Smart India Hackathon 2023 & 2025, Gitam University – Bengaluru

Python Essentials 1 , Cisco (in collaboration with Openedg Python Institute)

Google Cloud Computing Foundations Certificate , Google Cloud
